**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Election/Restrictions***

1. This application contains claims 8-10 are drawn to an invention nonelected with traverse in Paper Filed October 2004. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

***Specification***

2. The disclosure is objected to because of the following informalities: on page 2, line 7, Patent No. 5,139, 165 appears to be Patent No. 5,474,183.

Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Hakun et al. (4,653,642). Hakun `642 discloses a package (10) for storing and displaying product, comprising: a product display member having overlapped, closely spaced front and rear layers (front and rear panels 14, 16, see Figure 2 embodiment); a reusable product container and at least one unit of product (inner shell 20 and mask M); and means (transparent outer shell member 22) for removably attaching said reusable product container to said product display member, said means for removably attaching

comprising extended flange portions trapped between said partially overlapped, closely spaced front and rear layers. See Figure 5 embodiment.

With respect to claim 7, note the opening arranged in a top portion of said product display member in Figure 2 embodiment which will facilitate displaying the member.

The inner shell (20) of Hakun '642 can be re-used therefore it can be construed as a reusable product container.

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 2-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hakun '642. With respect to claims 2-4, which further limits the material of the package, it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. *In re Leshin*, 125 USPQ 416.

With respect to claims 5 and 6, Hakun '642 discloses fixing the front and rear panels together for example by means of staples (30) to maintain the integrity of the package (see column 4, lines 1-2) and hold the product therein. With respect to means for fixing, whether the fixing means is a staple, adhesive or any other art recognized equivalent is an obvious matter of choice such as expense.

***Response to Arguments***

7. Applicant's arguments filed October 15, 2004 have been fully considered but they are not persuasive. Contrary to applicant's argument the inner shell (20) of Hakun '642 can be re-used therefore it can be construed as a reusable product container.

***Conclusion***

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
